Sustainability approach

| | company's operations, other sector, industry or company specific environmental or social factors will be considered. Various key performance indicators, both quantitative and qualitative, are used to measure positive impact, including: company alignment with the UN Sustainable |
|---|--|
| | as part of this analysis, for instance, the evidence of a corporate mission, authenticity and experience of management, innovative culture and wor practices, diversity and climate disclosures and performance and traditional corporate governance. In addition, depending on the nature of the |
| | impact investing. Each company is scored on this basis to determine its suitability for investment. Certain factors are considered for all companie |
| | impact is considered via a proprietary framework that considers intentionality, additionality and materiality, three widely recognised principles of |
| | opportunity. As such, we are strong believers in the positive-sum outcomes that can be created by innovation, if the societal 'value creation' and economic 'value capture' incentives are aligned. The bigger the societal friction today, the bigger the future value creation opportunity is. Positiv |
| | educational access, diversity and inclusion to name but a few. But it is because these issues must be addressed which can also create an investment |
| | transformative? Because to address the environmental and societal challenges that we face in the timeframe we have, requires transformational rather than incremental changes to many industries. Society faces many significant issues; climate change, inequality of healthcare and |
| | Our mission is to generate investment alpha for our clients by investing in disruptive companies that have a transformative positive impact. Why |
| | ✓ Governance |
| | ✓ Social |
| Impact Investing | ✓ Environmental |
| Themes | |
| Norm-based screening | ✓ UN Global Compact |
| | Impact – A company's leadership, culture and operational quality will determine its long-term outcomes. The impact is thas on the world will be significantly influenced by these. Practices impact is directly aligned with operational quality. (3) Future Impact – The world is dynamic and in a continual state of flux. Businesses must set ambitious goals and seek to continuously improve or risk being left behind. We believe that our focus on understanding Product Impact in particular is a key differentiator versus many of our peers. We do this via a framework that considers and scores, intentionality, additionality and materiality, which are widely recognised impact investing principles: (a) Intentionality - Is the company's vision and mission consciously aligned with positive impact; (b) Additionality - Is the company have a significant positive impact on the world if it executes its strategy successfully? |
| | Product Impact – A company's products and services have the biggest impact on the world. Analysing the direct and indirect impacts of these are paramount to understanding the company's impact. Product impact is directly aligned with the company's strategic positioning. (2) Practices |
| | The team use a proprietary impact measurement framework to assess each investment opportunity. This analysis is framed in three dimensions: (1) |
| ESG-Integration | Yes |
| Best-in/of-Class | |
| Voting | Yes, organized internally C ² Link to voting policy |
| | C ² Link to engagement policy |
| Engagement | Yes, organized internally |
| | rights, the environment and anti-corruption. |
| | Manager's stewardship activities. The Fund applies a variety of exclusions, including those related to the exclusion of investment in fossil fuels, weapons/related strategic products and companies deemed in breach of the United Nations Global Compact principles on human rights, labour |
| | consistent with the stated strategy using both qualitative and quantitative assessments. The report will also provide details of the Investment |
| | not limited to: reduction of carbon emissions, waste and water usage, better healthcare outcomes and lower cost, quality education. The Investment Manager will report, on at least an annual basis, on the environmental and/or social impact of the companies in which the Fund invest |
| | Goals. The Investment Manager believes the best long-term growth opportunities will be innovative companies which are addressing the most significant sustainability challenges. Examples of environments or social themes which the fund intends to have a positive impact include, but are |
| | considers intentionality, additionality and materiality, three widely recognised principles of impact investing. Each company is scored on this basi to determine its suitability for investment and its alignment with the targets and indicators which underpin the UN Sustainable Development |
| | The Fund aims to increase the value of Shareholders' investments primarily through capital growth by investing in companies which meet the Investment Manager's criteria for positive environmental and/or social impact. Positive impact is considered via a proprietary framework that |
